October Program

Dr. Tony Ingraffea
Cornell Engineering Professor

Fishing in Alaska

Please join us on Monday, October 3rd, as the Twin Tiers Five Rivers Chapter of IFFF hosts Cornell professor Dr. Tony Ingraffea, who will be talking about fishing in Alaska. While many of you know Dr. Ingraffea from his talks about fracking and Marcellus Shale, he has also had the pleasure of fishing in Alaska many times. For his program, he will be discussing those many trips and sharing his tips for making your own trip-of-a-lifetime to Alaska the best it can be. Tony will also be the featured fly tyer prior to starting his talk. The fly tying demo starts at 6:30 pm, with the presentation starting at 7:00, at the Big Flats Community Center, 476 Maple Street, Big Flats, NY 14814.

November Program

Kirk Klingensmith
Warmwater Fishing in Florida

On November 7, our own Kirk Klingensmith will be talking about fishing in Florida. Kirk has been fishing Florida for a number of years, and has a multitude of different fishing experiences, including fishing from a kayak, with and without a guide, and fishing from shore along the coast. He has fished for numerous different species in the sunshine state, and he plans to share some of the knowledge he has gained from those many trips.

If you are looking to someday travel to one of these two hot fly fishing destinations, you won't want to miss these two events. We hope to see you there !

A Special Thanks to Andy Cappotelli

The Twin Tiers Five Rivers Chapter of IFFF wants to give special thanks to NY guide Andy Cappotelli who gave a talk last month about fishing in Montana. Andy generously donated our standard reimbursement for gas and honorarium to the Chapter. Awesome Thank you Andy!

Andy lives in the Rochester NY area and runs a successful fly fishing guide service called Trout Snobs, which you can check out on www.troutsnobs.com. His guiding service offers guided fly fishing trips on all Western New York trout streams as well as trophy trout hunting on Lake Ontario and Lake Erie tributaries. He also specializes in guided fly fishing in the Catskills, including the West branch, East branch and mainstream of the upper Delaware, as well as the Beaverkill, Esopus, Willowemoc and Neversink. Andy takes great care in tailoring his trips to meet the needs, wants, and experience levels of his customers.

President's Short Cast

Kirk Klingensmith . . . •••, ><(((°>

We are approaching October and a magical time to be a fly fisher. It is a beautiful time to fish, but it is prime time too. The salmon are coming in now on the Ontario tribs. Steelhead will be following in November for Great Lakes and Finger Lake tributaries. Trout fishing in the fall can be very good. And the smallmouth are moving into winter pools and will be putting the feed bag on before winter. This is a great time to get out and wet a line.

Rod Raffle – Get a Great Rod for Christmas

The Chapter will be raffling off a Temple Fork Outfitters TiCrX 7wt 9'0" rod. The rod was a gift from the John Rominger estate. (John was a long time member of the Chapter who passed away last fall.) Tickets are \$10 or 3 for \$20. This rod is a perfect size for streamers for trout or bass. The drawing will be at the Dec 19 business meeting, just in time for Christmas. You can buy your tickets at an upcoming meeting. Matt Towner is developing the capability to purchase tickets on-line through Paypal. Watch for announcements.

Rominger Sale:

Maryhelen Rominger and Jim Palmer will be selling the remaining fishing items of John Rominger's estate on October 8 from 8-2:00 at 654 Logan Street, Elmira, NY 14901. Jim says there is quite a bit remaining to sell, some real nice bamboo rods, believe a couple more reels, and lots of misc tackle and tying stuff. Some very nice stain glass and other fishing related paintings etc.

The club is meeting at the American Legion to avoid rental costs to meet at the Big Flats Community Center. A pleasant side benefit is one can purchase a beer there as well, which has resulted in some great socializing and fish story telling after the meetings!

Are You an Early Planner? – Reserve Jan 27-29, 2017 to Go to Somerset:

Every year, the Chapter hosts a group trip to the world's largest fly fishing show in Somerset NJ. <http://flyfishingshow.com/somerset-nj/> We leave Big Flats at 6 am Friday morning and return Sunday evening. We stay at a reasonable hotel, attend the show and have a great time. Be sure to hold your calendar open. Contact Kirk for more information or to reserve a spot kklingensmi@stny.rr.com or 607-346-7189.

Twin Tiers Five Rivers Chapter Library News

DVD Review by Nancy Siemon, Chapter Member

Joan Wulff's Dynamics of Fly Casting
From Solid Basic to Advance Techniques

This DVD, available from the TFR library, is an excellent tutorial on the techniques of fly casting. Joan Salvato Wulff, a National Fly Casting Champion and legendary woman in the field of fly fishing, explains and demonstrates various casts.

Joan begins with a brief history of fly fishing and then proceeds to specific analysis of the hand, wrist, forearm, and upper arm action in the casting process. She succinctly explains the basic cast and the roll cast. The false cast is demonstrated and details of the cast are described. Joan breaks down casting into its parts: loading move, power snap, and drift (follow through). The types of fly lines are shown on a diagram. Joan then proceeds to demonstrate and specifically describe the motions involved in various types of casts, including the reach cast and oval cast; how to deal with wind; double hauls; distance casting; shooting line on the back cast; single haul; and advanced techniques. Joan ends the video with advice on practice techniques.

This video is beautifully done. Joan's descriptions are specific along with her impressive demonstrations. She offers many tips and pointers. I think anyone can profit from this video, whether a beginner or an experienced fly fisherman.

With Special Thanks to Nancy Siemon
